PTZ video conferencing camera, mic speaker which can range from free social software such as zoom, webex, skype etc.

07 ARVIA SMART SPACE
Education & Enterprise Solution

Elegant LED Display Solutions

Professional-grade LED display solution that can be used in corporate office, education, retails and so many more industries. Our LED create vivid, eye-catching displays that are very attractive to customers in every industry. With high resolution and easy installation, many businesses are turning to Indoor LEDs for advertising, information displays and so on.

Ultra-Narrow Pitch LED Displays

Interactive Kiosk for hotel lobby, visitor welcoming and browsing, car showroom, airport information, E-Newspaper and E-Tender for government sector. Popular option in a corporate information and interactive application since it is easier for anyone to navigate the whole screen because the whole thing is now lower. Furthermore, it looks elegant and eye-catching.
All in One SuperLED

Streamline your viewing with the All-in-one LED Screen Display Panel, offering versatile solutions and vibrant video quality. Its user-friendly design incorporates built-in processors for seamless performance across applications. Choose from sizes 110", 136", and 165" to suit diverse needs.

LED Poster Screen

The most cost-effective, well balanced between video image quality and price. Great LCD alternative which has a fullscreen as compared to typical LCD Floor standee. Bright displays, flexible installation 0-15° adjustable stand angle, cascade connection, easy splicing and 5 different installation ways. Applicable to convention and exhibition center, shopping center, conference hall and many more.

Outdoor LED Screen

The outdoor LED screen display differs from its indoor counterpart, being weatherproof and possessing high brightness capabilities. Consequently, it is extensively utilized for outdoor applications such as digital billboards, advertising boards, stadium scoreboards, safety and health information displays, among others.

COB LED Screen

The PHSIA1.2-CH is a high-resolution indoor LED display known for its clarity and vibrant visuals. Ideal for advertising, information display, and immersive experiences, it sets a standard for excellence in LED display technology.

Transparent LED Displays

LED transparent display is a customized solution for LED display screen glass wall and it is a revolutionary product of glass wall. Brand new design and installation scheme are launched to accomplish the higher brightness, lower weight, and easy install characteristics. Providing multiple transparency options for a customer by realizing the pixel interval range selection from 2.8mm to 15.6mm. The transparency is from 65% to 95%.

Smart Classroom
Digital Transformation in Education

Smart classroom is technology-enhanced classrooms that foster opportunities for teaching and learning by integrating learning technology, such as interactive display, computers, specialized software, audience response technology, assistive listening devices, networking, and audio/visual capabilities.

Interactive Smartboard
• Anti glare tempered glass
• One Glass Touch Technology
• Multiple sizes available from 65,75,86 inch
• Built in Windows - optional operating system
• 20 multi touch points - IR Capacitive
• Built in Camera
• Built in with wireless collaboration system

Lecture Tracking & Recording System
• Various zoom level from 3x, 12x and 20x
• Auto tracking – track lecturer's movement
• Recording system
• Simple or advanced interface

PTZ Camera
• Great for classroom or meeting room
• With auto-tracking function and presets
• High definitions camera quality

Audio & Video Studio
• Wireless clip mic
• Table wireless mic speaker
• Pickup sound – 3 meters to 6 meters

Controller Software
• Display multiple input to the main screen
• Combine different format ; PowerPoint,
  pdf file, website, video and image

Smart Console
With a simple touch of the console, you can instantly control all your devices with a single click. The sleek and intuitive design makes it user friendly

Control & Command Center Solutions

Professional-grade video walls solutions; video wall displays, IP-based KVM, modular matrix videowall controller, and compact video wall controller. Arvia Videowall solution is the leading technology in Malaysia which set a full mark for reliability, durability and an extensive product line-up that meets all our client needs. We have helped many organization to deploy from a simple/creative wall art designs to the most sophisticated video wall.

Fine-Pitch LED Display

Extremely narrow bezel display as thin as 1.7mm for a virtually seamless and life-like viewing experience where the colors are brighter and more vibrant and the contrast makes everything on screen pop to life.

Video Wall Software

Remotely control your video wall content and layout. Our software allows you to configure your video wall any way you want with a range of placement and movement options for all your input sources.
IP-Based Display Controller

For the most advanced controls with KVM feature, go for IP-based Videowall Control System, which is combined features of KVM matrix, multiviewer, video wall control and smart workspace.

Compact Video Wall Processor

Up to 4,6,9 and 12 HDMI signal, compatible with the DVI1.0 protocol, achieving unlimited number of splicing according to your needs. A single machine can be customized with 2x2, 3x3, 1x2, 1X3,2x3, 3x2, 2x4, 4x2, 2x5, 5x2, 3×4, 4×3 and other splicing modes.

Software-based Display Controller

Manage content on you control room screens and video walls easily with universal software operator console. Using a single web application running in any browser, you can manually add sources, create layouts and even fully automate video wall content, for mission-critical applications.
Accessories

TV stands, brackets, splitters, cable, brackets, AV equipment, and more are available whenever you may need them.

Premium Digital Signage
Solutions

Complete digital signage solution: Industrial-grade Full HD digital signage player, full-featured digital signage software, durable professional display, floor standing vertical and horizontal kiosk and tablet/iPad kiosk, installation & technical support throughout the year. Training and handout are provided for system administrator as well as end-user operational, non-IT staff.

Double Sided Signage

Double-sided signs display diverse content, benefiting numerous industries; untapped potentials exist, prompting the need for further development and utilization.

Vertical Signage Kiosk

Available with powerful hardware and ergonomically designed, the piece is perfect for kiosks and businesses that require a radiant technology-based impact where space may be limited.

Horizontal Signage Kiosk

Different type of display hardware for your digital signage and touchscreen project. We have vertical floor standing kiosk and horizontal kiosk and tablet/iPad kiosk. Readymade & customized design also provided.

Digital Signage Display

Long operation hours, 24/7 Hours (up to 50,000 hours) with more brightness such as 400nits, 450nits, 500nits, and 700nits. Comes with 2 years warranty from a local manufacturer. Built in with Android or Windows OS.

Digital Signage Software

Free digital signage software, self-hosted and cloud-based. Create, design, schedule, broadcast and manage displays with simple drag and drop capability that supports a wide range of dynamic content, from text, audio, photos and videos.

Media Player

Industrial-grade Full HD or 4K digital signage player which is compact, powerful, designed for 24/7 operation and full-featured. Consider a quality player for long term investment. We have both Android and Windows-based Media player.

Touchscreen Solutions
Information at Your Fingertips

Touchscreen solution: Hardware, Software, Content Development, Enclosure / Kiosk / Touchscreen Stand, Compact Media Player, and Technical Support. A comprehensive selection of multitouch solution for business, entertainment, and learning.

Interactive Kiosk

Interactive Kiosk for hotel lobby, visitor welcoming and browsing, car showroom, airport information, E-Newspaper and E-Tender for government sector. Popular option in a corporate information and interactive application since it is easier for anyone to navigate the whole screen because the whole thing is now lower. Furthermore, it looks elegant and eye-catching.

Arvia Fliptouch

Arvia Fliptouch is a display screen that has touch-sensitive capabilities, allowing users to interact with the screen directly through physical touch. Widely used in various industries such as corporate, retail, healthcare, gaming, and education. They provide an intuitive and interactive user experience.
