

# ARVIA SMART MEETING ROOM

Smart meeting room is technology - enhanced meeting rooms that foster opportunities for discussion, sharing and brainstorming idea by integrating learning technology, such as interactive display, computers, specialized software, audience response technology, assistive listening devices, networking, and audio/visual capabilities.

**LATEST MEETING ROOM TECHNOLOGY**

# Arvia Smart Meeting Room

## Interactive and Versatile

With a smartboard, everyone in the meeting can see what's on the screen, can contribute to the discussion.

## Efficient and effective meetings

Easily share information and ideas with colleagues. Perfect for presentations, brainstorming sessions, and voting on ideas—no more need for a laptop or projector!

## Latest technology with successful portfolio

We have partnered with various government agencies and private organizations, providing tailored solutions that meet their specific needs and deliver successful results.

## Encourage collaboration

Improve communication and collaboration among employees, which can lead to increased productivity and efficiency.

## They're great for video conferencing

A smartboard makes remote meetings effortless, allowing everyone to see each other and share information as if they were in the same room.

## Connecting people

Connect with people worldwide without leaving the office. Engage in meetings, presentations, or collaborations as if everyone were in the same room.
