Bringing the Latest Learning Advantages to your Classroom and Meeting Room

This is your gateway to the technology, tools and training for 21st century teaching and collaboration. We will help you choosing the right technology for your unique needs and maximizing the learning benefits of using your Smartboard and reload technologies.

Infrared Zero Bonding Technology

The updated zero bonding technology reduces parallax so that we can write as if on a piece of paper. Even when looking from the side, we may hardly discern the distance between the fingertip and the coloured display. It also avoids fungus build-up and condensation.

Android only Operating System

Avoid hassle and confusion when use dual OS it can make user stress because of its complexity. With android operating system utilized by 95% of clients so the majority of applications are compatible. Similar usage as conventional phone making it easier to use like we used to.

GOOGLE PLAY STORE 1000+ APPS AVAILABLE

Support Google Workspace For Education

You can download a wide range of apps from Google Playstore on your Android device. From entertainment and productivity to social media and education, you can find apps for almost any purpose on Playstore.

The Universal Mirroring Receiver

Screen transmitting software "E-Share" Premium license

Allows your device such as Mac, windows PC, iPhone, iPad, Android, Nexus or Chromebook to wirelessly share their display over to the smartboard, instantly turning the room into a collaborative space.
