Who We Are

Arvia Solutions Sdn. Bhd. is the strategic evolution of Israk Solutions, focused on smart display systems, digital transformation, and AI-powered business platforms. Backed by over a decade of industry experience, our team has delivered mission-critical AV, command center, education, and enterprise digital solutions to government agencies, GLCs, and private organizations nationwide.

Introduced in 2025 as an innovation-led brand, Arvia accelerates proprietary product development, SaaS platforms, and scalable digital solutions—while retaining the same leadership, technical expertise, and governance that built Israk's trusted reputation.

Today, Arvia develops solutions including Arvia Smartboard, Self-Service Systems, BizCore CRM & ERP, and AI-powered automation, enabling organizations to operate smarter and more efficiently in a digital-first era.

VISION

A leading professional advanced digital technology solutions provider – delivering customized innovative solutions and excellent services that accelerate performance, empower growth, and drive a progressive nation.

MISSION

- We are a Professional Digital Technology Solutions Provider
- We provide advanced digital solutions that drive productivity, backed by trusted brands and outstanding customer support
- We empower users through digital transformation for dynamic growth and excellent performance
- We aspire continuous growth and excellence through innovative digital solutions for a progressive nation

Our Journey

2011 - 2024

Israk Solutions delivers nationwide AV, digital signage, videowall, command center, & smart classroom projects across government, education, healthcare, and enterprise sectors.

2018 - 2024

Development of proprietary smart display solutions including Arvia Smartboard, FlipTouch, Self service kiosk and customized digital systems.

2025

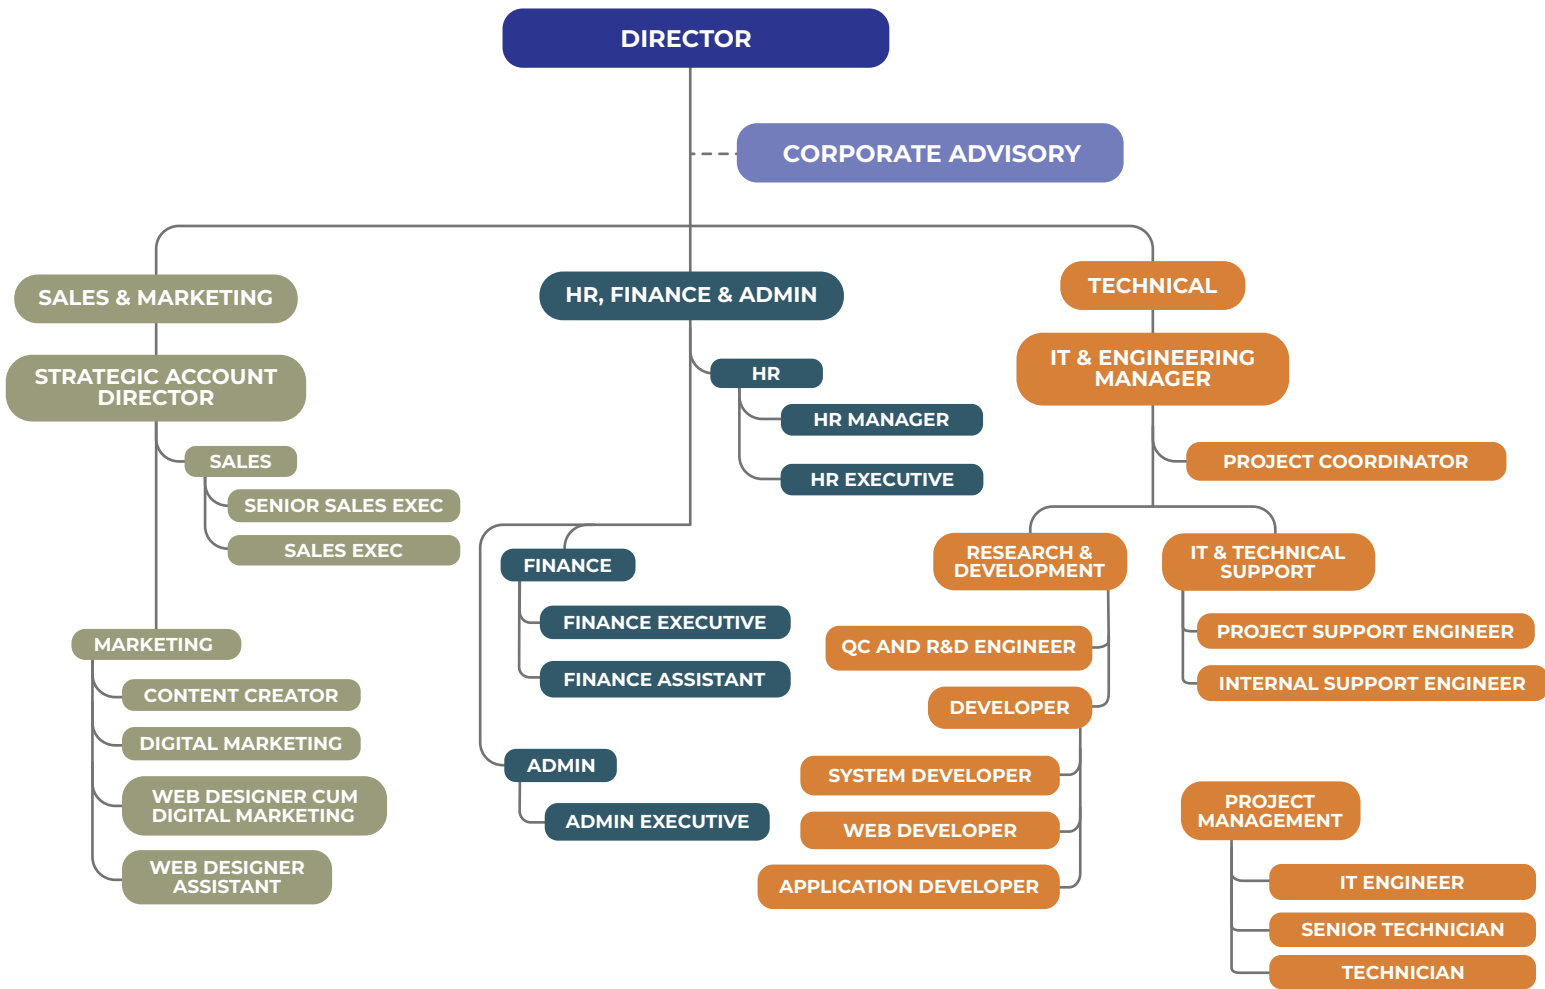

Arvia Solutions Sdn. Bhd. is formed as a strategic expansion to focus on product innovation, SaaS platforms, AI systems, way finding and directory and scalable digital transformation solutions.

We Strive To Deliver World Class Services For You

Leadership & Governance

Here is the backbone of a company and without them, Arvia Solutions would not be able to achieve our goals. **Their dedication to their work and their willingness to go above and beyond** for the company is one purpose only; to deliver the vision and mission of Arvia Solutions.

Core Solutions & Products

We can create, deploy and maintain customized applications which can be capitalized to improve your business solutions. The software and solution deploy by us would strengthen your business to stand in the changing market and serve as required. In order to achieve that, we consult, deploy, train and finally provide technical support your team.

01

BIZCORE CRM & ERP

Empower The Business with Complete Business Management System

02

LED DISPLAY

Indoor Large Display, borderless with Pitch size from P1.2mm – P4mm

03

SMART CLASSROOM

Latest 21st century education technology including Smartboard, Virtual Classroom, wireless presentation system and others

04

VIDEOWALL

Utilizing intuitive software and videowall controller combines several numbers of display LCD screens or LED Display from various inputs onto a larger screen.

05

DIGITAL SIGNAGE

The cutting-edge communication system that allows you to design, create, schedule targeted messages on any display throughout remote offices.

06

TOUCHSCREEN SOLUTIONS

Readymade or customizable kiosk that uses IR, Touch foil or PCAP touch technology. Interactive content development is also offered.

07

VIDEO CONFERENCING

PTZ video conferencing camera, mic speaker which can range from free social software such as zoom, webex, skype etc.

BIZCORE CRM & ERP Solutions

BizCore CRM & ERP empowers SMEs, NGOs, cooperatives, and associations to streamline operations, automate workflows, and gain full control—from sales and finance to HR and project execution. Backed by AI and a customizable platform, BizCore helps you grow faster, smarter, and more efficiently.

Accounting and Bookkeeping

Automate transactions, manage taxes, and track financials with real-time dashboards. BizCore's accounting module simplifies bookkeeping, enhances accuracy, and provides clear financial insights—ideal for SMEs aiming for growth and compliance.

Lead Management

Capture, organize, and follow up on leads from multiple sources. This module helps sales teams qualify prospects, automate follow-ups, and improve conversions—centralizing all lead data in one smart system.

Whatsapp Marketing

Run automated marketing campaigns via WhatsApp. Respond instantly, send templates, and boost engagement through personalized messages—integrated with CRM and AI for smarter, faster customer communication.

Project Management

Plan, assign, and track projects efficiently. BizCore's project module includes task scheduling, progress monitoring, and team collaboration tools—ensuring smooth project execution and timely delivery with full visibility across milestones.

Inventory Management

Monitor stock levels, manage warehouses, and automate restocking. BizCore keeps your inventory accurate and synced in real time—helping businesses reduce losses, improve control, and maintain supply continuity effortlessly.

Tasks Management

Organize team workflows with to-do lists, deadlines, and reminders. This module improves accountability and productivity by centralizing task assignments across departments in a visual, trackable dashboard.

Elegant LED Display Solutions

Professional-grade LED display solution that can be used in corporate office, education, retails and so many more industries. Our LED create vivid, eye-catching displays that are very attractive to customers in every industry. With high resolution and easy installation, many businesses are turning to Indoor LEDs for advertising, information displays and so on.

Ultra-Narrow Pitch LED Displays

Interactive Kiosk for hotel lobby, visitor welcoming and browsing, car showroom, airport information, E-Newspaper and E-Tender for government sector. Popular option in a corporate information and interactive application since it is easier for anyone to navigate the whole screen because the whole thing is now lower. Furthermore, it looks elegant and eye-catching.

LED Poster Screen

The most cost-effective, well balanced between video image quality and price. Great LCD alternative which has a fullscreen as compared to typical LCD Floor standee. Bright displays, flexible installation 0-15° adjustable stand angle, cascade connection, easy splicing and 5 different installation ways. Applicable to convention and exhibition center, shopping center, conference hall and many more.

COB LED Screen

The PHSIA1.2-CH is a high-resolution indoor LED display known for its clarity and vibrant visuals. Ideal for advertising, information display, and immersive experiences, it sets a standard for excellence in LED display technology.

All in One SuperLED

Streamline your viewing with the All-in-one LED Screen Display Panel, offering versatile solutions and vibrant video quality. Its user-friendly design incorporates built-in processors for seamless performance across applications. Choose from sizes 110", 136", and 165" to suit diverse needs.

Outdoor LED Screen

The outdoor LED screen display differs from its indoor counterpart, being weatherproof and possessing high brightness capabilities. Consequently, it is extensively utilized for outdoor applications such as digital billboards, advertising boards, stadium scoreboards, safety and health information displays, among others.

Transparent LED Displays

LED transparent display is a customized solution for LED display screen glass wall and it is a revolutionary product of glass wall. Brand new design and installation scheme are launched to accomplish the higher brightness, lower weight, and easy install characteristics. Providing multiple transparency options for a customer by realizing the pixel interval range selection from 2.8mm to 15.6mm. The transparency is from 65% to 95%.

Smart Classroom

Digital Transformation in Education

Smart classroom is technology-enhanced classrooms that foster opportunities for teaching and learning by integrating learning technology, such as interactive display, computers, specialized software, audience response technology, assistive listening devices, networking, and audio/visual capabilities.

Interactive Smartboard

- Anti glare tempered glass
- One Glass Touch Technology
- Multiple sizes available from 65,75,86 inch
- Built in Windows - optional operating system
- 20 multi touch points - IR Capacitive
- Built in Camera
- Built in with wireless collaboration system

Lecture Tracking & Recording System

- Various zoom level from 3x, 12x and 20x
- Auto tracking – track lecturer's movement
- Recording system
- Simple or advanced interface

PTZ Camera

- Great for classroom or meeting room
- With auto-tracking function and presets
- High definitions camera quality

Audio & Video Studio

- Wireless clip mic
- Table wireless mic speaker
- Pickup sound – 3 meters to 6 meters

Controller Software

- Display multiple input to the main screen
- Combine different format ; PowerPoint, pdf file, website, video and image

Smart Console

With a simple touch of the console, you can instantly control all your devices with a single click. The sleek and intuitive design makes it user friendly

Control & Command Center Solutions

Professional-grade video walls solutions; video wall displays, IP-based KVM, modular matrix videowall controller, and compact video wall controller. Arvia Videowall solution is the leading technology in Malaysia which set a full mark for reliability, durability and an extensive product line-up that meets all our client needs. We have helped many organization to deploy from a simple/creative wall art designs to the most sophisticated video wall.

COB LED Screen

Experience exceptional visual clarity with advanced Chip-on-Board (COB) LED technology. This solution delivers ultra-fine pixel pitch, superior brightness and enhanced durability, while offering consistent image quality across wide viewing angles.

Modular Video Wall Software

Remotely control your video wall content and layout. Our software allows you to configure your video wall any way you want with a range of placement and movement options for all your input sources.

Compact Video Wall Processor

Up to 4,6,9 and 12 HDMI signal, compatible with the DVI1.0 protocol, achieving unlimited number of splicing according to your needs. A single machine can be customized with 2x2, 3x3, 1x2, 1X3,2x3, 3x2, 2x4, 4x2, 2x5, 5x2, 3x4, 4x3 and other splicing modes.

Ultra-Narrow Video Wall LCD Display

Extremely narrow bezel display as thin as 1.7mm for a virtually seamless and life-like viewing experience where the colors are brighter and more vibrant and the contrast makes everything on screen pop to life.

IP-Based Display Controller

For the most advanced controls with KVM feature, go for IP-based Videowall Control System, which is combined features of KVM matrix, multiviewer, video wall control and smart workspace.

Software-based Display Controller

Manage content on you control room screens and video walls easily with universal software operator console. Using a single web application running in any browser, you can manually add sources, create layouts and even fully automate video wall content, for mission-critical applications.

Premium Digital Signage Solutions

Complete digital signage solution: Industrial-grade Full HD digital signage player, full-featured digital signage software, durable professional display, floor standing vertical and horizontal kiosk and tablet/iPad kiosk, installation & technical support throughout the year. Training and handout are provided for system administrator as well as end-user operational, non-IT staff.

Double Sided Signage

Double-sided signs display diverse content, benefiting numerous industries; untapped potentials exist, prompting the need for further development and utilization.

Horizontal Signage Kiosk

Different type of display hardware for your digital signage and touchscreen project. We have vertical floor standing kiosk and horizontal kiosk and tablet/iPad kiosk. Readymade & customized design also provided.

Digital Signage Software

Free digital signage software, self-hosted and cloud-based. Create, design, schedule, broadcast and manage displays with simple drag and drop capability that supports a wide range of dynamic content, from text, audio, photos and videos.

Vertical Signage Kiosk

Available with powerful hardware and ergonomically designed, the piece is perfect for kiosks and businesses that require a radiant technology-based impact where space may be limited.

Digital Signage Display

Long operation hours, 24/7 Hours (up to 50,000 hours) with more brightness such as 400nits, 450nits, 500nits, and 700nits. Comes with 2 years warranty from a local manufacturer. Built in with Android or Windows OS.

Media Player

Industrial-grade Full HD or 4K digital signage player which is compact, powerful, designed for 24/7 operation and full-featured. Consider a quality player for long term investment. We have both Android and Windows-based Media player.

Touchscreen Solutions

Information at Your Fingertips

Touchscreen solution: Hardware, Software, Content Development, Enclosure / Kiosk / Touchscreen Stand, Compact Media Player, and Technical Support. A comprehensive selection of multitouch solution for business, entertainment, and learning.

Interactive Kiosk

Interactive Kiosk for hotel lobby, visitor welcoming and browsing, car showroom, airport information, E-Newspaper and E-Tender for government sector. Popular option in a corporate information and interactive application since it is easier for anyone to navigate the whole screen because the whole thing is now lower. Furthermore, it looks elegant and eye-catching.

Touchscreen Monitor

Touch monitor or panel to be placed on a wall or existing kiosk. Our modern and slim-type touch monitor & android tablet is suitable for any occasion. There are different sizes available from 13" to 65" of IR, Touch Foil or Capacitive Touch technology.

Arvia Fliptouch

Arvia Fliptouch is a display screen that has touch-sensitive capabilities, allowing users to interact with the screen directly through physical touch. Widely used in various industries such as corporate, retail, healthcare, gaming, and education. They provide an intuitive and interactive user experience.

Interactive Smartboard

Interactive Smartboard TV Panel from popular & quality brands Arvia. Capacitive or infrared touchscreens allow for multi-drawing capabilities, enabling up to 20 touch points. Free annotation software allows easy collaboration and interactivity for any purpose such as smart classroom or smart meeting room.

Self Service Kiosk

Provide ease for consumers to self-service and the convenience that comes with fulfilling their own order include hotel check-in / check-out, restaurant orders, airline check-in, etc. These machines surely renders time efficiency and even reduces labor-cost.

Meeting Room Booking System

Meeting room booking system with powerful software and hardware, high-quality and elegant interactive IPS LCD Panel. It allows easy scheduling of office spaces and meeting rooms while showing real-time schedules display, providing workplace insights. Integrated with existing work calendars such as Google Calendar, Microsoft Exchange or Microsoft 365 Calendar

The background features a dark blue gradient with abstract geometric patterns. In the upper left, there is a network of pink lines connecting several pink circular nodes. In the lower right, there is a network of light blue lines connecting several light blue circular nodes. Scattered throughout the background are numerous small, semi-transparent triangles in various shades of blue and pink.
